DEFINITIONS

Accident means a sudden, unexpected and unintended event which is identifiable and caused solely by an external physical force resulting in Injury to an Insured person. Accident does not include a Loss due to or contributed to by disease or Sickness.

Deductible means the amount an Insured is required to pay as provided by the applicable coverage under the policy in the event of a Loss.

Expense means the Usual and Customary charges for Medically Necessary treatment, service or supplies. Such Expense shall not include any amount not customarily charged to persons without insurance.

Hospital means a licensed institution including a tax-supported institution of the state which has on the premises, or prearranged access to, medical and surgical facilities. It must maintain permanent facilities for the care of overnight resident patients under the care of a Physician. It must have a Registered Nurse (R.N.) always on duty or call. Confinement in the special wing of a Hospital used primarily as a nursing, rest, convalescent or extended care facility is not confinement in a Hospital, unless such confinement is because of a lack of the Hospital's full service wing.

Injury means bodily harm caused by an Accident which occurs while the policy is in force and is the sole cause of the Loss.

Insured means an eligible student or an eligible student's dependent (if dependent coverage is available the policy).

Loss means medical Expense caused by Injury or Sickness and covered by the policy.

Medically Necessary means medical services, supplies or

treatment authorized by a Physician to treat an Insured person's bodily Injury or Sickness which are: (a) consistent with the symptoms or diagnosis; (b) appropriate and accepted according to good medical practice standards; (c) not primarily for the convenience of the Insured person, Physician or other providers; and (d) consistent with the most appropriate supply or level of services which can safely be provided to the patient.

Physician means any practitioner of the healing arts, licensed by the state in which he practices and acting within the scope of his license, including a duly licensed podiatrist, surgeon, osteopath, dentist, chiropractor, optometrist, psychologist, physical therapist, and graduate nurse. Physician shall not include a member of the Insured's immediate family.

Pre-Existing Condition means a condition for which medical advice, diagnosis, care or treatment was recommended or received during the six months immediately preceding the enrollment date of coverage or as to a pregnancy existing on the enrollment date of coverage. A condition will not be considered pre-existing once an Insured has been covered for 12 months following the effective date of coverage for claims not related to pregnancy. A condition will not be considered pre-existing once an Insured has been covered for ten months following the enrollment date of coverage for claims that are related to pregnancy.

Sickness means disease or illness which causes a Loss while the Insured is covered by the policy. In the event 75% of the eligible students of the policyholder, reaching a minimum of 300 students are insured, then Sickness means illness or disease resulting in Loss covered by the policy. Sickness includes normal pregnancy and complications of pregnancy.

Usual and Customary Expense means an Expense which: a) is charged for treatment, supplies or medical services Medically Necessary to treat the Insured's condition; and b) does not exceed the usual level of charges made for similar treatment, supplies or medical services in the locality where the Expense is incurred.

We, Us or Our means Markel Insurance Company.

You, Your or Yours means the Insured.

CONTINUOUS COVERAGE

In determining whether a pre-existing provision applies to an eligible person, We credit the time You were previously covered under a previous health insurance plan or policy or employer provided health benefit arrangement, if the previous coverage was continuous to a date not more than 63 days prior to the effective date of the new coverage. Such credit shall apply to the extent that the previous coverage was substantially similar to the new coverage. The creditable coverage outlined above means any prior health care coverage as defined in HIPAA which includes group coverage; individual coverage; Medicare; Medicaid; military service related care; Indian health service or tribal organization coverage; state health benefits risk pool; a public program offered under the Federal Employees Health Benefits Program; a public health plan; Peace Corps Act health plan; state children's health programs (S-CHIP); and foreign national health plans.

This Extension of Benefits only applies to the Insureds who are not eligible to continue coverage under the new or renewal policy issued to the Policyholder. COORDINATION OF BENEFITS

This policy coordinates with other plans under which an individual is covered so that the total benefits available will not exceed 100% of the allowable Expenses.

When a claim is made, other valid and collectible group insurance pays its benefits without regard to this policy. This policy then adjusts benefits so that the total benefits available will not exceed the allowable Expenses. No plan pays more than it would without the coordination provision. In the absence of other valid and collectible group insurance, it is Our intention that Expenses incurred in connection with any covered Injury or Sickness shall be fully payable subject to the terms, conditions and limitations of this policy.

“Other valid and collectible group insurance” shall mean any plan providing medical Expense benefits for or by reason of dental, Physician, nurse, Hospital care, treatment, or confinement, or the performance of surgery and/or anesthesia, which benefits are provided by (1) any type of service plan contracts, any group or blanket insurance, employee benefit plan or any plan arranged through an employer, trustee, union or employee benefit association; or (2) any plan or program created or administered by national or state government, or agencies thereof. We will not limit or exclude payment on a claim because the Insured person is eligible for or is provided medical assistance under the provisions of Title XIX of the Social Security Act. A plan without a coordinating provision is always the primary plan.

Conformity with State Statutes

Any provision of this plan of insurance which, on its effective date, is in conflict with the statutes of the state in which it is issued, is hereby amended to conform to the minimum requirements of such statutes.

Any Expense not specifically listed in the preceding sections is not covered.
